

RACK **PACK**

Raise your system – and its performance – up from its messy stack with our pick of enjoyment-boosting equipment racks

BEST FOR BLOWING THE BUDGET

AUDIOPHILE STARBASE
FROM £915 ★★★★★

We tested the £915 three-shelf version of this incredibly versatile support system, but you could spend a lot more – and it's worth every penny. OK, it's never going to make a bad system sound good, but with high-end hi-fi the results are spectacular. It adds space, refinement and extra detail; the top end is smoother, while bass gains crucial weight and power. Exceptional.
