Audiophile BASE

EQUIPMENT RACK

AUDIOPHILEBASE SB ★★★★★ £1063

The StarBase, to give it its full name, is simply the best hi-fi rack money can buy

BEST SYSTEM OVER £2000

WE KNOW THIS is rather expensive, but the Leema system is such an incredible feat of engineering and matching, and one of the best complete systems we've ever heard, that it simply has to win.

The Naim system is another stunner, especially with those impressive Neat speakers. If your budget doesn't quite stretch to Leema money, the Naim is an exceptional system to 'settle' for.

The Musical Fidelity setup, though not quite as accomplished as the other two, offers different characteristics, so will appeal greatly to those who particularly enjoy refinement and warmth.
